

# GOT FISH GUTS?

## WANT US TO COMPOST THEM?

This spearing and netting season, Fond du Lac's Environmental Program is interested in collecting your fish waste and turning it into compost for our gardens!

### It's easy:

1. Clean your fish.
2. Gather your leftover fish waste in sealed, five-gallon buckets (free buckets available).
3. Arrange a drop off time at the FDL Cannery or Ojibwe School.

### Or...

1. Clean your fish at the FDL Cannery and follow posted instructions in the abattoir (butchering facility).

### Got questions?

Contact Carson Becicka, 218-780-7914.

(For Ojibwe School drop off, contact François Médion, 218-269-4530. For Cannery drop off, contact Carson at number above).
